2. Upload 5 images to IBM object storage and make it public. write html code to displaying all the 5 images.

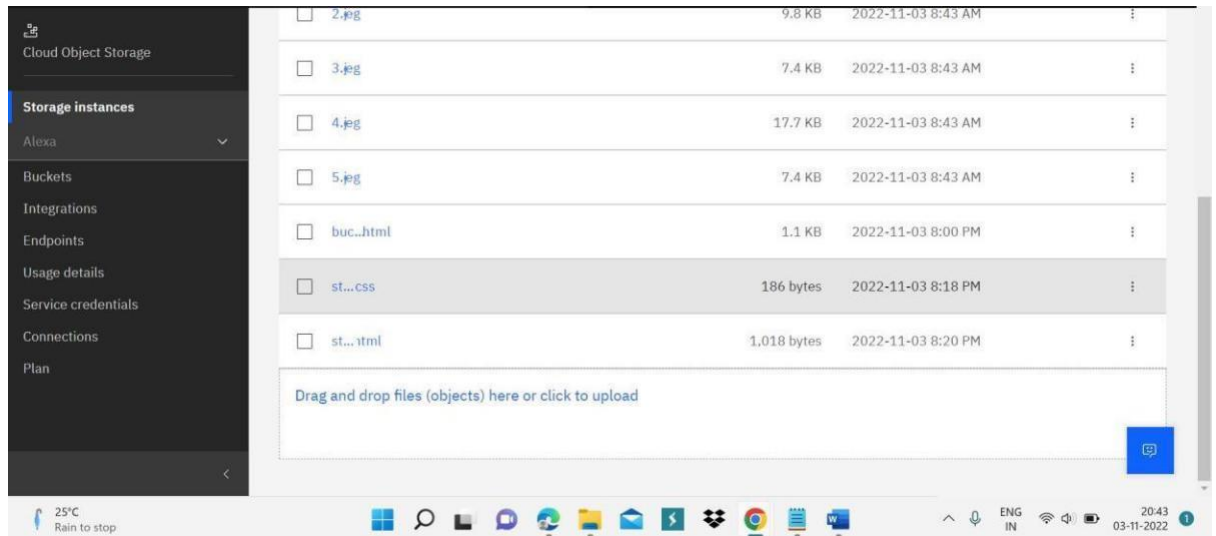

Html code:

A screenshot of a Notepad++ window titled "bucket - Notepad". The window displays an HTML document. The code starts with a DOCTYPE declaration, followed by a head section containing a charset declaration and a meta tag for viewport settings. The title of the document is "Inventory Management System". The body section has a green background color and a central image placeholder. The image source is a URL pointing to a cloud storage bucket. The status bar at the bottom of the window shows "Ln 27, Col 20", "60%", "Windows (CRLF)", "UTF-8", and system information including "25°C Rain to stop" and the date "03-11-2022 20:42".

Output:

3. Upload a CSS page to the object storage and use the same page in your HTML code.

Html code:
