

# SETTING APPLICATION ENVIRONMENT

Create an account in SendGrid:

The screenshot shows a web browser window with the URL `app.sendgrid.com/login`. The browser's tab bar includes several open tabs: 'Welcome to...', 'IBM', 'IBM-EPBL/...', 'Your Repos...', 'IBM-EPBL (...)', 'Deploying...', 'github fold...', 'How do I fi...', and 'SendGrid'. The login page features the Twilio SendGrid logo at the top. Below the logo, there are input fields for 'Username' (containing `jagadeep.j.2019.cse@ritchennai.edu.in`) and 'Password' (masked with dots). A 'Forgot your password?' link is positioned to the right of the password field. A blue 'Log In' button is centered below the fields. Below the button, a link reads 'Log in with single sign-on (SSO) instead'. At the bottom of the page, a message states 'Don't have a Twilio SendGrid account? [Sign up now!](#)'. The Windows taskbar at the bottom shows the system clock as 13:21 on 16-11-2022, along with weather information (29°C, Partly sunny) and various application icons.

## Welcome, JAGADEEP!

To get up and running quickly, please follow the steps outlined below.

### Send your first emails with Twilio SendGrid

#### Create a sender identity

Before sending email, you'll need to create a sender identity. There are [two ways](#) to do this, but we recommend creating a Single Sender to get set up quickly and test your email integration.

Create a Single Sender

Authenticate a domain instead

Your sender identity is the "from" email address your recipients will see in their inbox. [Learn more](#) about this.

Your Business

<jane.doe@your\_business.com>

to me

#### Send your first email

Please create a sender identity before sending your first email.
